"CONCRETE & CONSTRUCTIONAL ENGINEERING"

VOL. XLVII *FORTY-SEVENTH YEAR OF PUBLICATION* 1952

CONCRETE PUBLICATIONS, LTD., 14 DARTMOUTH STREET, LONDON, S.W.1

INDEX

PAGE

Aeronautics and civil engineering 193
Aggregates, Grading concrete 40
Air-entrained concrete, Pressure-type air meters for, by P. J. F. Wright and A. D. McCubbin 225
" no-fines concrete 69
Analysis, Methods of structural 1
" of structures by a photographic method .. 18
Arches, An exact method of analysis of continuing parabolic, by V. A. Morgan 343
Atomic radiation, Protection against 72

AUTHORS:

Abeles, P. W., D.Sc.(Vienna), on The design of pre-stressed concrete beams for working conditions 75
Bennett, E. W., M.Sc., on The design of simple and composite prestressed concrete beams 141
Bosma, P. F. van der Meulen, on Concrete piles in Holland 217
Broadbent, B. H., B.Sc.(Eng.), on Cooling-water intake structure at an oil refinery 133
Craemer, Professor H., on Rectangular slabs spanning in two directions 195
Dews, N. A., on A substitute for reinforcement bars, 121; on Prestressed precast concrete footbridges 241
Gallia, A., on Design of rigid-frame bridges with kerbs 363
Geen, Burnard, on Guildford Cathedral 165
Ingerslev, E., on Rectangular members subjected to moments in two directions 353
Lee, Donovan, B.Sc.(Eng.), on Hollow-tile and solid concrete floor slabs 331
Lossier, Henry, on The pathology of reinforced concrete 203, 253, 318
Manning, G. P., M.Eng., on Analysis of groups of piles by the displacement method 3
Morgan, V. A., M.Eng., on An exact method of analysis of continuing parabolic arches, 343; on The design of an unusual bow girder 47
Nash-Gower, V. H., B.Sc., on Columns subjected to bending in two directions and with axial loads.. 233
Paduart, André, on Calculation of shell roofs without stiffening beams 297
Pennington, A. M., on Silos for storing grain on the farm 285
Savona, J. S., on Design of singly-reinforced members in bending 161
Wilkins, R. J., M.Sc.(Eng.), on Analysis of groups of piles 209
Wright, P. J. F., B.Sc., and A. D. McCubbin on Pressure-type air meters for air-entrained concrete 225

Bamboo reinforcement in India, Research on .. 42
Beams, Diagonal tension in reinforced concrete .. 383
" for working conditions, The design of pre-stressed concrete, by P. W. Abeles .. 75
" The design of simple and composite pre-stressed concrete, by E. W. Bennett .. 141
Bending, Design of singly-reinforced members in, by J. S. Savona 161

BOOK REVIEWS:

Acoustics in Modern Building Practice, by Fritz Ingerslev 240
Aglomerados de Hormigon Hidráulico, by Patricio Palomar 276
Anschautiche Verfahren zur Berechnung von Durchlaufbelken und Rahmen (Ausgleichverfahren), by R. v. Halasz 148
Coast Erosion and Protection, by R. R. Minikin .. 147
Das Betonieren bei Frost, by F. Bohm and W. Drechsel 191
Des Ingenieurs Taschenbuch 202
Design and Placing of High Quality Concrete, by D. A. Stewart 23
Die Zweiseitig Gelagerte Platte, by H. Olsen and F. Reinitzhuber 62
Displacement Method of Frame Analysis, by G. P. Manning 114
Earth Retaining Structures: Civil Engineering Code of Practice No 2 114
Examples of the Design of Reinforced Concrete Buildings, by C. E. Reynolds 276
Forces in Framed Structures, by T. Lyle Morgan 276

BOOK REVIEWS (*contd.*): PAGE

Initially-Deflected Thin Plate with Initial Deflection Affined to Additional Deflection, by Henrik Nylander 342
La Pathologie du Béton Armé, by H. Lossier .. 23
Laxton's Builders' Price Book 240
Modern Factory, by E. D. Mills 62
Nuevo Método de Cálculo del Hormigón Pretensado, by E. Torroja and A. Páez 23
Pipe Resistance, by T. E. Beacham 114
Prestressed Concrete Structures, by August E. Komendant 310
Publications of the International Association for Bridge and Structural Engineering, Vol. XI .. 310
Reclamation in the United States, by Alfred R. Golzé 310
Reinforced Concrete, by Oscar Faber 202
Strength of Materials, by John B. Thirlwell .. 240
Structural Analysis of the Dome of Discovery, by T. O. Lazarides 202
Studies in Cement-Aggregate Reaction 276
Suction of Moisture held in Soil and other Porous Materials, by D. Croney, J. D. Coleman, and Pamela M. Bridge 240
System of Tables for Quick and Accurate Solving of any Continuous Beam, by A. P. Skayannis .. 147
Testing of Measuring Equipment 114

Bores in rough seas 359
Bow girder, The design of an unusual, by V. A. Morgan 47, 148
Bridge, An early reinforced concrete 24
" at Abertillery, Prestressed 189
" Effect of the wind on Golden Gate 201
" Prestressed cantilever 65
" -testing machine 211
" with adjustable prestressing cables, A pre-stressed 281
" works, Specifications and quantities for road and 64
Bridges in Germany, Prestressed 90, 339
" with kerbs, Design of rigid-frame, by A. Gallia 363

Cement and concrete, The setting and hardening of 101
" bags, Emptying 43
" Containers for loose 325, 352
" Hydrophobic 43, 387
" Portable plant for loose 125
Centering, Adjustable beams for supporting 158
" for shell roofs 265
Chimneys at Fawley, Hants., Four reinforced concrete 222
" Code of practice for 127
Clay blocks, British Standard for hollow 97
Columns subjected to bending in two directions and with axial loads, by V. H. Nash-Gower 233
"Concrete and Constructional Engineering" Prize Design 119
" at the time of loading, Strength of 329, 374
" in a dam, Cooling 150
" The setting and hardening of cement and 101
Concreting plant, Mobile 184, 214
Consolidation of concrete in roads and runways .. 155
Cooling-water intake structure at an oil refinery, by B. H. Broadbent 133
Culvert, A long concrete 67
" with a prestressed deck 301

Dam, Cooling concrete in a 150
" Fly-ash in concrete for a 373
" in Australia 99
Dams, Fish passes at 89
" in India 201
Designations 361
Diagonal tension in reinforced concrete beams .. 383
Displacement method, Analysis of groups of piles by the, by G. P. Manning 3
Dome, A precast reinforced concrete 212
Durham, Conditions of service in the county of 159, 278

Factory at Brynmawr, South Wales, Shell roofs at a 151
" in the Netherlands, A windowless 247
Fire resistance of thin slabs 317
Fish passes at dams 89

(*continued overleaf*)

PAGE

Floor slabs, Deformation of 280
" " Hollow-tile and solid concrete, by Donovan Lee 331
Floors, British Standard Code for in-situ 294
Fly-ash in concrete for a dam 373
Footbridge, A prestressed 115, 300
" Test of a prestressed 185
Footbridges, Prestressed precast, by N. A. Dews .. 241
Foundation for a turntable 216
Foundations for generators, The design of 377

Germany, Reinforced concrete regulations in .. 113
Girder, The design of an unusual bow, by V. A. Morgan 47, 148
Grading aggregates 40
Guildford Cathedral, by Burnard Geen 165

Hangars of 333-ft. span, Shell-roof 140
Heat-resistant concrete 236
Hydrophobic cement 43, 387

International Association for Bridge and Structural Engineering 119

Jetty for large tankers on the Thames 25
Joints, Copper strips for expansion 278
" New material for expansion 388

Laboratory, A nuclear research 98
Loads for buildings, Design 279
London Airport, Prestressed runway at 36
" " The main access tunnel at 91
Louvres, Reinforced concrete 211

Multi-story structures, New method of building .. 96

No-fines concrete, Air-entrained 69
" " Three-story dwellings of 123
Nuclear radiation, Protection against 128
" research laboratory 98

Office building, A reinforced concrete 87
Oil refinery, Cooling-water intake structure at an, by B. H. Broadbent 133
" " Water-cooling structures at an 103

PATENTS:
Beams and posts 122
Prestressed concrete structures 382
Waterproofing agent 354

Pathology of reinforced concrete, by Henry Lossier 203, 253, 318
Photographic method, Analysis of structures by a .. 18
Piles, Analysis of groups of, by R. J. Wilkins .. 209
" by the displacement method, Analysis of groups of, by G. P. Manning 3
" Combined timber and concrete 275
" in Holland, Concrete, by P. F. van der Meulen Bosma 217
" New system for repairing 360
" Prestressed sheet 224
" Steel removed from prestressed 156
Plant for the contractor, New 328
Poles, British Standard for concrete 55
Precast concrete in buildings 57
" reinforced concrete dome 212
" slabs, A retaining wall with 63

PRESTRESSED CONCRETE:
Anchoring wires 56
Beams for working conditions, The design of, by P. W. Abeles 75
Beams, The design of simple and composite, by E. W. Bennett 141
Beams, The effect of low temperatures on 359
Bridge at Abertillery 189
Bridges in Germany 90, 339
Cantilever bridge 65
Deck, A culvert with a prestressed 301
Footbridge, Test of a 185
Footbridges 115, 300
Footbridges, Precast, by N. A. Dews 241
Frame, Test of a reinforced and prestressed .. 326
High-tensile steel 62
Piles, Steel removed from 156
Railway viaduct 385
Research 70
Runway at London Airport 36
Sewage pit 34
Sheet piles 224
Staircase, Helicoidal 237
Tank, A cylindrical 19
Wires, Measuring the tension in 66

Prismatic roof of 66-ft. span 9
Railway tracks, Placing concrete beside 39

PAGE

Rectangular members subjected to moments in two directions, by E. Ingerslev 353
Refinery, Cooling-water intake structure at an oil, by B. H. Broadbent 133
" Water-cooling structures at an oil 103
Regulations in Germany, Reinforced concrete .. 113
Reinforced Concrete Association 215
" concrete, The pathology of, by Henry Lossier 203, 253, 318
Reinforcement bars, A substitute for, by N. A. Dews 121
" Economy in mild steel 295
" Higher stresses in mild steel 262
" in India, Research on bamboo .. 42
" Standard for steel 261
" Stresses in steel 7, 86
" bars, The supply of 45
Research on concrete 70
Retaining wall with precast slabs 63
Revetments for water channels and sea walls, Precast 323
Rigid-frame bridges with kerbs, Design of, by A. Gallia 363
Road and bridge works, Specifications and quantities for 64
Roads and runways, Consolidation of concrete in .. 155
" without side forms, Widening 252
Roof at a store building, Shell 277
" in Belgium, Shell 311
" of the settlement of supports, The effect on a shell 270
" of 66-ft. span, Prismatic 9
" of 150-ft. span, Shell 8
Roofs, A Symposium on shell 262
" at an omnibus garage, Shell 271
" Centering for shell 265
" of 66-ft. span, Shell 9
" Shell 71, 231
" Thin concrete walls and 315
" without stiffening beams, Calculation of shell, by André Paduart 297
Runway at London Airport, Prestressed 36
Runways, Consolidation of concrete in roads and .. 155

Scaffolding, British Standard for metal 71
Seas, Bores in rough 359
Sewage pit, A prestressed 34
Shell roof at a store building 277
" " in Belgium 311
" " hangars of 333-ft. span 140
" " of the settlement of supports, Effect on a 270
" " of 150-ft. span 8
Shell roofs 71, 231
" " A Symposium on 262
" " at a factory at Brynmawr, South Wales 151
" " at an omnibus garage 271
" " Centering for 265
" " of 66-ft. span 9
" " without stiffening beams, Calculation of, by André Paduart 297
Shuttering, A German method of 157
Sieves, A mechanical vibrator for test 120
Silos for storing grain on the farm, by A. M. Pennington 285
Slabs cast horizontally, Wall 251
" Deformation of floor 280
" Fire resistance of thin 317
" Hollow-tile and solid concrete floor, by Donovan Lee 331
" spanning in two directions, Rectangular, by H. Craemer 195
Stadium, The construction of a 164
Staircase in Germany 64
" Prestressed helicoidal 237
Strength of concrete at the time of loading .. 329, 374

Tank, A cylindrical prestressed 19
Temperatures on reinforced and prestressed beams, The effect of low 359
Testing concrete, Methods of 131, 270
Transporting concrete by cranes 259
Tunnel at London Airport, The main access .. 91
Tunnels, A rapid method of lining 355
Turntable, Foundation for a 216

Viaduct in prestressed concrete, A railway 385
Vibrator for test sieves, A mechanical 120

Wall slabs cast horizontally 251
" " Precast 207
" with precast slabs, A retaining 63
Walls and roofs, Thin concrete 315
" Thin concrete 70
Water-cooling structures at an oil refinery 103
Wind on Golden Gate bridge, Effect of the 201
Windowless factory in the Netherlands 247
Words, Plain 73
